Hobbies

About me

  As a self-taught full stack developer with a strong passion for web development, I have been using a variety of resources such as books, video tutorials, and official user guides to improve my understanding of these technologies.
I have also been studying English to improve my communication skills.

  I am confident that my self-motivated approach to learning and my ability to quickly adapt to new technologies will be an asset to any development team and looking forward to the opportunity to continue to grow and develop as a full stack developer.
